

I have been an active listener (financial support as well as prayer support) of KLOVE for as long as KLOVE has been available in the San Antonio area. (4 yrs or more) And the upbeat, positive word coming from them makes my commute to and from work a more pleasant event. I would be very disappointed if after all this time KLOVE were no longer available to me as an individual but more so as a member of the San Antonio Community. I believe the positive word has a great effect on the daily lives of every listener in the the San Antonio community. And to be able to learn of the wonderful positive events that are daily, weekly opportunities in which we can take part in the San Antonio area is of great importance to all and of great public interest and enhancement to our community.
